

ASTC (Advanced Studies and Training Centre) was established in 2000 to bridge the gap between Oil and Gas End Users and Contractors / Vendors / Service providers to achieve common Business objective without compromising on Safety and Quality.

ASTC provides professional international trainers with wide range of experience from Oil and Gas Upstream, Midstream and Downstream in area of Exploration, Multidiscipline Design, Procurement, Construction, Commissioning, Operation, EPC, Tendering, Proposals and S&M.

OVERVIEW

The Managing Safely in the Oil and Gas Industry course is designed to equip delegates with the skills and knowledge to manage health, safety and environment efficiently and effectively within the oil and gas industry. The course is designed to use a rich variety of case studies, exercises, videos and tutorials to support an engaging and interactive learning in real life situations. This course is accredited by the Institution of Occupational Safety & Health (IOSH), one of Europe's leading health and safety awarding bodies.

WHO SHOULD ATTEND?

Persons working within the oil and gas industry, who have responsibility to manage health, safety and environment. It also suit individuals working at any level in oil and gas installations. These include engineers, technicians, supervisors, project managers etc.
